

At the Orthopedic Specialty Center of Northern California, we are committed to providing a frictionless experience for all our patients. We want our patients to feel like they are a part of our TOSC family. We strive to meet our patients needs as quickly and efficiently as possible.

It is our mission to provide a superior orthopedic experience in total joint replacement. Our commitment is to create a culture of fans by investing into relationships with: our patients who refer friends and family to our practice, physicians who refer their patients to us and our employees who are a valued contributor in our patient care.
